SUMMARY

With foundational knowledge in HTML, CSS, and JavaScript, I've built interactive websites and projects, including a Netflix Clone made using MERN and weather forecadt website following The Odin Project's guidance. I've mastered React, developing UI websites and learning API integration, enhancing frontend skills in a practical manner.

PROFESSIONAL EXPERIENCE

NeoDocto Inc.
Associate AI Data Analytics
Intern.

Jan 2024 - Present

- Collected, cleaned, and analyzed data using tools like Python and Excel. Conducted exploratory data analysis, performed statistical analyses, and created visualizations to communicate insights.

EDUCATION

Bachelor of Technology - specialization in Artificial Intelligence and Machine Learning Sushant University
Gurugram
2025

Higher Education
D.A.V Public School , Vasant Kunj
Minor in Computer Science
2021

CERTIFICATIONS

Machine Learning Specialization
Coursera , Deep Learning AI , Stanford Online

Introduction to MERN Stack
Simplilearn

Introduction to Flutter
Simplilearn

PROJECTS

WellNest.AI

https://github.com/sumit-1803/WellNest.AI

- AI-Powered Health & Wellness Platform - Predictive health models to assess diabetes risk, heart disease, and estimate calorie expenditure. Revolutionizing well-being management with data-driven insights.

Random-Image-Generator

https://sumit-1803.github.io/randomImage/

- Made a random image generator according to a query in the process of leaning how to use API's
- Developed random image generator using JavaScript and APIs like Unsplash. Fetching and updating images dynamically, honed skills in API integration

Netflix-Clone

https://github.com/sumit-1803/Netflix-Main

- Recreated the Netflix interface using React.js, Redux Toolkit, Node.js, Express.js, MongoDB, and Tailwind CSS. Check it out to see how I brought the streaming experience to life!

SKILLS

Front-End
 Javascript , React , HTML, CSS, Bootstrap, Tailwind.

Technical-Skills
Web Development, Api, Nodejs, Node, Css, Hmtl Css, Bootstrap, Tailwind Technical Skills: Sql, Relational Database, Strong Analytical Skills, Pattern Recognition, Data Visualization, Excel, Tableau , Python, Tensorflow, Pandas , Numpy, Jupyter Notebook, java , Keras Tensorflow, Machine Learning, Neural Network, Random Forest, Regression, Classification, Supervised and Unsupervised learning , Flutter , Dart , Mongo-db , ExpressJs , Redux , .
